Work Experience

Paper Tiger papertiger.com

Technology Director - '21 - *Present* / Remote (Tampa Bay, FL)

I lead a highly-skilled, distributed team of web developers and collaborate with some of the best designers in the business. We create high-flying (and award-winning!) web experiences for SaaS, product, and e-commerce web applications.

Highlights:

- Overseeing full-stack development
- Setting strong development standards
- Exploring and implementing new and emerging technologies
- Fostering an atmosphere of continuous improvement through training and code reviews
- Collaborating with the operations team and creating value in all aspects of every project

Lead Frontend Developer - '20 - '21 / Remote (Tampa Bay, FL)

Responsible for leading the development team in building captivating, award-winning web applications for medium to enterprise-level clients. Collaborated closely with cross-functional leadership teams to strategically plan, coordinate, and execute projects and processes.

Senior Frontend Developer - '18 - '20 / Remote (Tampa Bay, FL)

Responsible for writing code in front and back-end languages to create award-winning web experiences for clients. Collaborating with the dev team through code reviews, and working closely with cross-functional internal and external teams to solve complex problems.

atLarge, Inc - **Senior Developer** - '17 - '18 / Remote (Tampa Bay, FL)

Responsible for leading web projects, setting tech standards, and mentoring fellow developers through code reviews and skill-sharing events.

TrendyMinds - **Frontend Developer** - '15 - '17 / Remote (Portland, Oregon)

Worked as part of a collaborative team to create delightful web experiences for a wide range of applications.

atLarge, Inc - **Frontend Developer** - '12 - '15 / Hybrid (Sarasota, Florida)

Wrote code in front-end languages for a variety of web applications.
