## Work Experience

**Paper Tiger** [papertiger.com](http://papertiger.com)

**Technology Director** - '21 - **Present** / Remote (Tampa Bay, FL)

Responsible for overseeing and implementing web technologies, always learning what I can to support the team's needs. Developing comprehensive training plans and fostering in-house expertise. Maintaining high standards throughout the dev team. Overseeing full-stack development and coding complex, highly scalable SaaS, product, and e-commerce web applications.

Collaborating with the operations team on workflows, estimates, and company strategies, and advising stakeholders on the technical scope and feasibility of complex requirements.

**Senior Lead Developer** - '20 - '21 / Remote (Tampa Bay, FL)

Responsible for leading the development team in building captivating, award-winning cutting-edge web applications for medium to enterprise-level clients. Collaborated closely with cross-functional leadership teams to strategically plan, coordinate, and execute projects and processes.

**Senior Web Developer** - '18 - '20 / Remote (Tampa Bay, FL)

Responsible for writing code in front and back-end languages to create award-winning web experiences for clients. Collaborating with the dev team through code reviews, and working closely with cross-functional internal and external teams to solve complex problems.

**atLarge, Inc - Senior Developer** - '17 - '18 / Remote (Tampa Bay, FL)

Responsible for leading web design projects, setting tech standards, and mentoring fellow developers through code reviews and skill-sharing events.

**TrendyMinds - Frontend Developer** - '16 - '17 / Remote (Portland, Oregon)

Worked as part of a collaborative team to create delightful web experiences for a wide range of clients.

**atLarge, Inc - Frontend Developer** - '12 - '14 / Hybrid (Sarasota, Florida)

Wrote code in front-end languages for a variety of web clients.
